SUMMARY

Final-year B.Tech Computer Science and Engineering student at Bhaskar Engineering College with a strong foundation in Python, Java, C, web development, Object-Oriented Programming, Data Structures, and Database Management Systems. Interested in building practical software solutions across web development and Artificial Intelligence.
Adopts an AI-augmented software development workflow, using modern AI tools for research, ideation, prototyping, coding assistance, debugging, documentation, and learning while reviewing, integrating, testing, and validating implementations. Strong interest in software development, Artificial Intelligence, web technologies, and continuously learning emerging technologies.

EDUCATION

BHASKAR ENGINEERING COLLEGE, HYDERABAD
B.Tech — Computer Science & Engineering
2023–2027 | CGPA: 7.9/10

AKASHAYDEEP JUNIOR COLLEGE
Intermediate — MPC
2021–2023 | 94%

TECHNICAL SKILLS

- AI-Augmented Development: ChatGPT, Claude, Google Antigravity, Prompt EngineeringLanguages: Python, Java, C, JavaScript
- Web Technologies: HTML5, CSS3, JavaScript
- Frameworks: Django, Flask
- Databases: MySQL, SQL
- Tools: Git, GitHub, VS Code, XAMPP
- AI & ML: Generative AI, Machine Learning
- Core Concepts: Data Structures & Algorithms, OOP, DBMS, REST APIs

FEATURED PROJECT

ONLINE VEHICLE PARKING RESERVATION SYSTEM **2026**
ull-Stack Developer | Django, MySQL, HTML5, CSS3, JavaScript

- Built a web-based parking reservation platform for managing parking slots, availability, and online reservations through a centralized system.
- Implemented user authentication, dashboards, parking-slot management, availability tracking, reservation workflows, and role-specific functionality for users, administrators, and service providers.
- Developed the frontend using HTML5, CSS3, and JavaScript and implemented backend functionality using Django with MySQL for persistent application and reservation data.
- Applied an AI-augmented development workflow using ChatGPT, Claude, and Google Antigravity for research, prototyping, coding assistance, debugging, UI/UX refinement, and documentation, followed by human-led validation and integration.

CERTIFICATIONS

- **Google AI Essentials V1**

Skills: Generative AI • Prompt Engineering • AI-Assisted Productivity • Responsible AI • AI Tool Evaluation
Credential: https://www.credly.com

- **Agentic AI Certified Foundations Associate**

Skills: AI agents, tool calling, RAG, autonomous workflows
Credential: https://catalog-education.oracle.com

CORE STRENGTHS

Problem Solving • AI-Augmented Development • Analytical Thinking • Adaptability • Continuous Learning • Teamwork • Communication
